ABOUT THIS REPORT

IN THIS REPORT

This report contains a summary of crime statistics for York Regional Police pertaining to incidents reported between January 1st and December 31st, 2006. A one year and five year comparison is made. Miscellaneous statistics are also included.

HOW ARE CRIMES COUNTED?

The data in this report is based on accumulated to-date information. Therefore, the number of violations recorded may have changed from the figures that were published in the last annual statistical report due to late reporting, reclassification, or unfounded incidents.

York Regional Police publish crime statistics based on the number of reported violations (Incident-based Uniform Crime Reporting (UCR)). Incident-based UCR classifies incidents according to the four most serious violations in the incident (generally the violations which carry the longest maximum sentences under the *Criminal Code*). Violent incidents (except robbery) are classified differently from other types of crime. For violent crime, a separate incident is recorded for each victim. Robbery, however is counted as if it were a non-violent crime in order to avoid inflating the number of incidents. In categorizing incidents, violent violations always take precedence over non-violent violations.

MAKING COMPARISONS

Unless otherwise noted, all statistics in this report are compiled using Incident-based reporting methodology. These statistics should not be compared with those provided by the *Canadian Centre for Justice Statistics (CCJS)*, a division of *Statistics Canada*, who converts the data received to an Aggregate-based UCR format which measures only the most serious offence related to an incident. In addition, CCJS includes the number of offences reported by the Toronto North Detachment of the Royal Canadian Mounted Police with York Regional Police's crime statistics.

CCJS data should be used for comparisons between policing jurisdictions because all data is compiled using the Aggregate-based reporting methodology.

TERMINOLOGY

Actual totals include only those incidents for which an occurrence report was made and have been substantiated through police investigation.

ATM robberies include robberies at ATM machines within financial institutions or

at stand alone locations where the victim is approached and forced to withdraw money or is robbed as they are leaving the machine.

Car Jacking includes robberies where the intent is to steal a motor vehicle with the use of violence against the person(s) in care or control of that vehicle.

Clearance rates are calculated by the number of violations cleared by charge or otherwise (persons processed by other means) divided by the number of violations. These violations may not necessarily have occurred during the reporting period but some time prior.

Crime rates are expressed as a rate per 100,000 population using year-end population estimates supplied by York Region Planning and Development Services Department and have been rounded to two decimals.

Criminal incident refers to a set of connected events which usually constitute an occurrence report. One incident can include more than one violation.

Demands for Service occur when information is provided requiring a police response that generates an incident number.

Deposit robberies include robberies where a business deposit is stolen from a person using force.

Financial robberies include robberies occurring at banks, credit unions, or involving armoured cars.

Hate Crime means a criminal offence committed against a person or property which is motivated by the offender's bias, prejudice or hate based on race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or any other similar factor.

Home invasion is an intrusion into a residence with the intent of robbing the occupants therein.

Offence is defined as a statistical fact for Aggregate-based reporting. This terminology is not used in Incident-based reporting.

Retail robberies include robberies occurring at retail or commercial premises including convenience stores, restaurants/fast food establishments, massage parlours, gas stations, and donut/coffee shops.

Street robberies include muggings and intimidation style robberies and all other robberies by force or threat of force that do not meet the criteria of any of the other categories.

Violation refers to a contravention of the *Criminal Code, Federal, or Provincial Statutes*.

Young Person refers to a person aged 12 - 17 years inclusive (*Youth Criminal Justice Act*).

Youth refers to a person under the age of 18 years.

Youth crime refers to the number of youths formally charged plus processed by other means for committing a criminal or federal offence.

TYPES OF VIOLATIONS: INCIDENT-BASED REPORTING

Crimes Against Persons are crimes involving aggressive action (with the intent to do harm) or threat of such action by one person against another. These include violations causing death, attempt capital crime, sexual assault, assault, robbery and other violent violations, and violations/deprivation of freedom.

Violations Causing Death include murder 1st degree, murder 2nd degree, manslaughter, infanticide, criminal negligence cause death, and other related offences causing death.

Attempt Capital Crime violations include attempted murder and conspiracy to commit murder.

Sexual Assault violations include aggravated sexual assault, sexual assault with a weapon or cause bodily harm, sexual assault, and other sexual crimes.

Assault violations include aggravated assault, assault with a weapon or cause bodily harm, assault, unlawfully cause bodily harm, discharge firearm with intent, assault peace/public officer, criminal negligence cause bodily harm, and other assaults.

Robbery and Other Violent Violations include robbery, extortion, criminal harassment, uttering threats, explosives causing death/bodily harm, arson disregard for human life, and other violent violations.

Violations/Deprivation of Freedom include kidnapping (forcible confinement), hostage taking, and abduction.

Crimes Against Property involve unlawful acts with respect to property but do not involve the use or threat of violence against an individual. These include arson, break and enter, theft, have stolen goods, fraud, and mischief.

Drug violations include violations under the *Controlled Drugs and Substances Act* and the *Food and Drug Act*. These violations are comprised of possession, trafficking, and importation or production of various illicit controlled and restricted drugs.

Weapons violations include violations under the *Criminal Code* which involve any thing used, designed to be used or intended for use in causing death or injury to any person or used for the purpose of threatening or intimidating any person. These

include possession, use, trafficking, pointing, unauthorized import/export, firearms documentation and administration, and unsafe storage.

Public Morals violations include prostitution, indecent acts, production/distribution of child pornography, gaming and betting, and public morals.

Other Criminal Code violations include the remaining non-traffic *Criminal Code* violations that are classified as neither violent nor property violations. These violations are divided into two parts:

Part A: include bail violations, counterfeiting currency, disturb the peace, escape custody, luring a child via computer, obstruct, unlawfully at large, trespass at night, fail to appear, breach of probation, and threatening/harassing telephone calls.

Part B: include offences against public order, offences relating to terrorist activity, offences against administration of law and justice, invasion of privacy, offences against the person and reputation, offences against the rights or property, fraudulent transactions/contracts and trade, intimidation of justice system participant, wilful/forbidden acts/respect of certain property, offences related to currency, proceeds of crime, attempts/conspiracies/accessories, offences relating to criminal organization, and all other criminal code.

Federal Statutes violations include violations under all other federal statutes. They include the *Bankruptcy Act, Income Tax Act, Canada Shipping Act, Public Health Act, Customs Act, Competition Act, Excise Act, Immigration Act, Firearms Act, National Defence Act, Young Offenders Act, Youth Criminal Justice Act, and Other Federal Statutes.*

Traffic violations include all traffic violations under the *Criminal Code*. These include dangerous operation, evade police, impaired related violations, and other criminal traffic violations.

Other Criminal Traffic violations include fail to stop or remain and drive while prohibited.

CHANGES IN REPORTING METHODOLOGY

On January 1, 2002, a reporting change was implemented to include motor vehicle collisions when a party left the scene of the accident, but was not apprehended, as a *Criminal Code* violation. This only includes collisions which constitute an offence contrary to the *Criminal Code*. This change of reporting methodology is in accordance with other police services' practices.

Beginning in 2002, all police services in Canada began sending incidents of impaired driving where a road-side suspension was issued by police (rather than laying a charge) to drivers found to have a blood-alcohol reading at or slightly above the legal limit. These violations were not counted as *Criminal Code* offences prior to 2002.

The delivery of 9-1-1 service to the residents of York Region began in 1994 with a Bell Canada operator in Ottawa answering all calls to 9-1-1 from within York Region. The calls would then be transferred to an appropriate emergency response agency within York Region. In April 2001, an application was made by Bell Canada to the Canadian Radio and Telecommunications Commission (CRTC) to withdraw this service. In June 2001, Regional Council authorized Regional staff to directly provide 9-1-1 emergency service in conjunction with York Regional Police. On April 2, 2002, 9-1-1 call answering was transferred to the Region of York from Bell Canada with York Regional Police as the first point of reception for 9-1-1 calls.

In June 2002, Bill C-15A, an act to amend the *Criminal Code* with respect to the sexual exploitation of children on the internet, received royal assent. The new amendments make it an offence to communicate with children via a computer system for the purpose of facilitating or committing certain sexual offences, such as child luring or abduction. To correspond with this, CCJS implemented a violation code which is included in the "Other Criminal Code (Part A)" category.

On April 1, 2003, the *Youth Criminal Justice Act* (YCJA) came into force, repealing and replacing the *Young Offenders Act*.

On May 16, 2003, Mr. Justice Rogin of the Superior Court of Ontario released his judgment in the matter of R. v. J.P. and held that section 4(1) of the *Controlled Drug and Substances Act* (simple possession), as it applied to marihuana only, was invalid. Due to this ruling, police were thereafter unable to lay charges relating to simple possession of marihuana. On October 7, 2003, the Court of Appeal ruled that "the prohibition against possession of marihuana in s. 4 is in force" from that date forward.

On October 4, 2004, the Community Resource Centre (CRC) opened its doors at Hillcrest Mall in Richmond Hill. Motor vehicle collisions or minor offences, such as theft or damage under \$1000, can now be reported by either attending the CRC or reporting on-line via the internet.

In 2005, York Regional Police replaced the existing Records Management System (July 17th) and Computer Aided Dispatch (November 6th). This new application will accommodate the growth of the organization and meet legislative and reporting requirements. Included in the reporting requirements was the migration to the most recent version of the Uniform Crime Reporting Survey (UCR) 2.2. Although the principles are the same, there are some changes in scoring rules that may affect our 2005 crime statistics. Caution must be used when comparing these data with previous years.
