ABOUT THIS REPORT

IN THIS REPORT

This report contains a summary of crime statistics for York Regional Police pertaining to incidents reported between January 1 and December 31, 2008. A one-year and five-year comparison is made. Miscellaneous statistics are also included.

HOW ARE CRIMES COUNTED?

York Regional Police publishes crime statistics based on the number of reported violations (Incident-based Uniform Crime Reporting (UCR)). Incident-based UCR classifies incidents according to the four most serious violations in the incident (generally the violations which carry the longest maximum sentences under the *Criminal Code*). Violent incidents (except robbery) are classified differently from other types of crime. For violent crime, a separate incident is recorded for each victim. Robbery, however is counted as if it were a non-violent crime in order to avoid inflating the number of incidents. In categorizing incidents, violent violations always take precedence over non-violent violations.

All data in this report is based on reported crimes and represents a “snapshot” at the time of extraction from the records management system at year-end. Unless otherwise noted, any updates or revisions to data for the years previous to 2008 are not reflected in this report.

MAKING COMPARISONS

Unless otherwise noted, all crime statistics in this report are compiled using Incident-based reporting methodology. These statistics should not be compared with those provided by the *Canadian Centre for Justice Statistics* (CCJS), a division of *Statistics Canada*, who converts the data received to an Aggregate-based UCR format which measures only the most serious offence related to an incident. In addition, CCJS includes the number of offences reported by the Toronto North Detachment of the Royal Canadian Mounted Police with York Regional Police’s crime statistics.

CCJS data should be used for comparisons between policing jurisdictions because all data is compiled using the Aggregate-based reporting methodology.

TERMINOLOGY

Actual totals include only those incidents for which an occurrence report was made and have been substantiated through police investigation.

ATM robberies include robberies at ATM machines within financial institutions or at stand-alone locations where the victim is approached and forced to withdraw money or is robbed as they are leaving the machine.

Calls for service occur when information is provided requiring a police response that generates an incident number.

Car Jacking includes robberies where the intent is to steal a motor vehicle with the use or threat of violence against the person(s) in care or control of that vehicle.

Clearance rates are calculated by the number of violations cleared by charge or otherwise (persons processed by other means) divided by the number of violations. These violations may not necessarily have occurred during the reporting period but some time prior.

Crime rates are expressed as a rate per 100,000 population using year-end population estimates supplied by the York Region Planning and Development Services Department and have been rounded to two decimals.

Criminal incident refers to a set of connected events which usually constitute an occurrence report. One incident can include more than one violation.

Deposit robberies include robberies where a business deposit is stolen from a person using force.

Financial robberies include robberies occurring at banks, credit unions, or involving armoured cars.

Hate crime means a criminal offence committed against a person or property which is motivated by the offender's bias, prejudice or hate based on race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or any other similar factor.

Home invasion is an intrusion into a residence with the intent of robbing the occupants therein.

Offence is defined as a statistical fact for aggregate-based reporting. This terminology is not used in incident-based reporting.

Other robberies include robberies that do not meet the criteria for any of the other categories. Examples include hotel robberies, robberies by uninvited guests at house parties, and break and enter occurrences that result in a robbery occurring.

Retail robberies include robberies occurring at retail or commercial premises including convenience stores, restaurants/fast food establishments, massage parlours, gas stations, and donut/coffee shops.

Street robberies include muggings and intimidation style robberies and all other robberies by force or threat of force that occurs in a public place.

Violation refers to a contravention of the *Criminal Code*, *Federal*, or *Provincial Statutes*.

Young person refers to a person aged 12 - 17 years inclusive (*Youth Criminal Justice Act*).

Youth refers to a person under the age of 18 years.

Youth crime refers to the number of youths formally charged plus processed by other means for committing a criminal or federal offence.

CHANGES IN REPORTING METHODOLOGY

On October 4, 2004, the Community Resource Centre (CRC) opened its doors at Hillcrest Mall in Richmond Hill. Motor vehicle collisions or minor offences, such as theft or damage under \$1000, can now be reported by either attending the CRC or reporting online via the Internet.

In 2005, York Regional Police replaced the existing Records Management System (July 17th) and Computer Aided Dispatch (November 6th). This new application will accommodate the growth of the organization and meet legislative and reporting requirements. Included in the reporting requirements was the migration to the most recent version of the Uniform Crime Reporting Survey (UCR) 2.2. Although the principles are the same, there are some changes in scoring rules that may affect our 2005 crime statistics. Caution must be used when comparing these data with previous years.

In December 2006, Bill C-19 received royal assent amending the *Criminal Code* by making street racing an offence. To correspond with this, *Statistics Canada* implemented violation codes relating to dangerous operation while street racing. These violation codes fall under the Criminal Code Traffic category.

In June 2007, Bill C-59 received royal assent amending the Criminal Code to address the illegal recording of movies in theatres. To correspond with this, *Statistics Canada* implemented a violation code for the unauthorized recording of a movie. This violation code is included in the “Other Criminal Code” category.

In April 2008, multiple changes were made to the reporting methodology of Incident-based reporting by the *Canadian Centre for Justice Statistics - Statistics Canada*. These included extractions of certain components formerly part of multi-offence codes, code repositioning from one crime category to another, or aiming to respond to statistical needs expressed by their stakeholders. The following is a list of changes that have an impact on the reporting of crime within this report:

Corrupting Morals of a Child – moved from “Other Criminal Code Part A” to “Crimes Against Persons”

Luring a Child Via a Computer - moved from “Other Criminal Code Part A” to “Crimes Against Persons”

Voyeurism - moved from “Other Criminal Code Part A” to “Crimes Against Persons”

Use Firearm (or Imitation) in Commission of Offence – moved from “Weapons Violations” to “Crimes Against Persons”

Pointing a Firearm - moved from “Weapons Violations” to “Crimes Against Persons”

Intimidation of a Justice System Participant or a Journalist – moved from “Other Criminal Code Part B” to “Crimes Against Persons”

Intimidation of a Non-Justice Participant - moved from “Other Criminal

Code Part B” to “Crimes Against Persons”

Harassing Phone Calls – moved from “Other Criminal Code Part A” to “Crimes Against Persons”

Utter Threats to Property/Animals – moved from “Other Criminal Code Part B” to “Other Criminal Code Part A”

Public Incitement of Hatred - moved from “Other Criminal Code Part B” to “Other Criminal Code Part A”

Due to these changes, caution must be used when making one or five-year comparisons between Crimes Against Persons, Other Criminal Code, and Weapons Violations.
